EXPERIENCE

❖ **Web Developer** -frontend: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript

— *At IVIXIA TECH LABS. Internship*
JANUARY 2024 - JUNE 2024

EDUCATION

❖ **Dr. APJ Abdul Kalam Technical University, Lucknow**

— *Masters of Computer Application [MCA]*
NOVEMBER 2022 - JULY 2024

❖ **Mahatma Gandhi Kashi Vidyapeeth, Varanasi**

— *B.Sc. Computer Science*
JULY 2019 - JULY 2022

PROJECTS

❖ **Food Inspector API**— *Inspect Unhealthy food ingredients*

Usage-(HTML, CSS, JavaScript, API, UI/UX Designs)

The Food Inspector API provides detailed information about food ingredients, ideal for cooks, nutritionists, and individuals. By entering an ingredient name, users can determine if it is healthy or unhealthy through descriptions, categories, and usage insights.

❖ **Explorer** — *Unofficial College website*

Usage-(HTML, CSS, JavaScript, PHP, bootstrap)

This is a group project where I did frontend work like designing & Coding Explore. Explore is an unofficial website for our college only for students where they get all information about subjects, syllabus, previous year papers and notes and a bit of guidance for the future.

❖ **Snake Game** — *a simple desktop application*

Usage-(Completely in JAVA)

Create a fun desktop game where players control a growing snake, showcasing Java coding skills & offering a nostalgic gaming experience.
